Chateauneuf-du-Pape

Château Mont-Redon will be familiar to those who know and love Châteauneuf-du-Pape being well recognized as the largest family owned estate in the appellation. With almost 100 hectares under vine, the majority of Mont-Redon's vineyards are located in the appellations most favoured area, the high plateau which is covered in the large round pudding stones that Châteauneuf is so well known for.

There has been considerable investment at Mont-Redon over the past five years. The entire winery is now climate controlled. Rows of oak barriques of various ages have replaced the old large foudres of yester-year, and large temperature controlled stainless steel vats now line the walls, resulting in wines of freshness and precision. Mont-Redon is a prime candidate for both the most improved producer and the best value producer of the Southern Rhone.
